Why Medinoxx?

Safe and fast dispensation
in care homes

Specialized on **high-
quality** sealed-cup system

Patient-individual
medication care

From the pharmacy
directly to the patient

The Modern Medication Management System

Liquid and solid medication in one tray

Suitable for over **90%** of all medication

Patented, innovative and flexible system

Re-usable trays and **recyclable** cups

What makes us different?

Medication rethought

For the first time solid, liquid and difficult medication can be supplied in one sealed-cup tray.

Quality first

Certified by the Central Laboratory of German Pharmacists (ZL); GMP-qualified production.

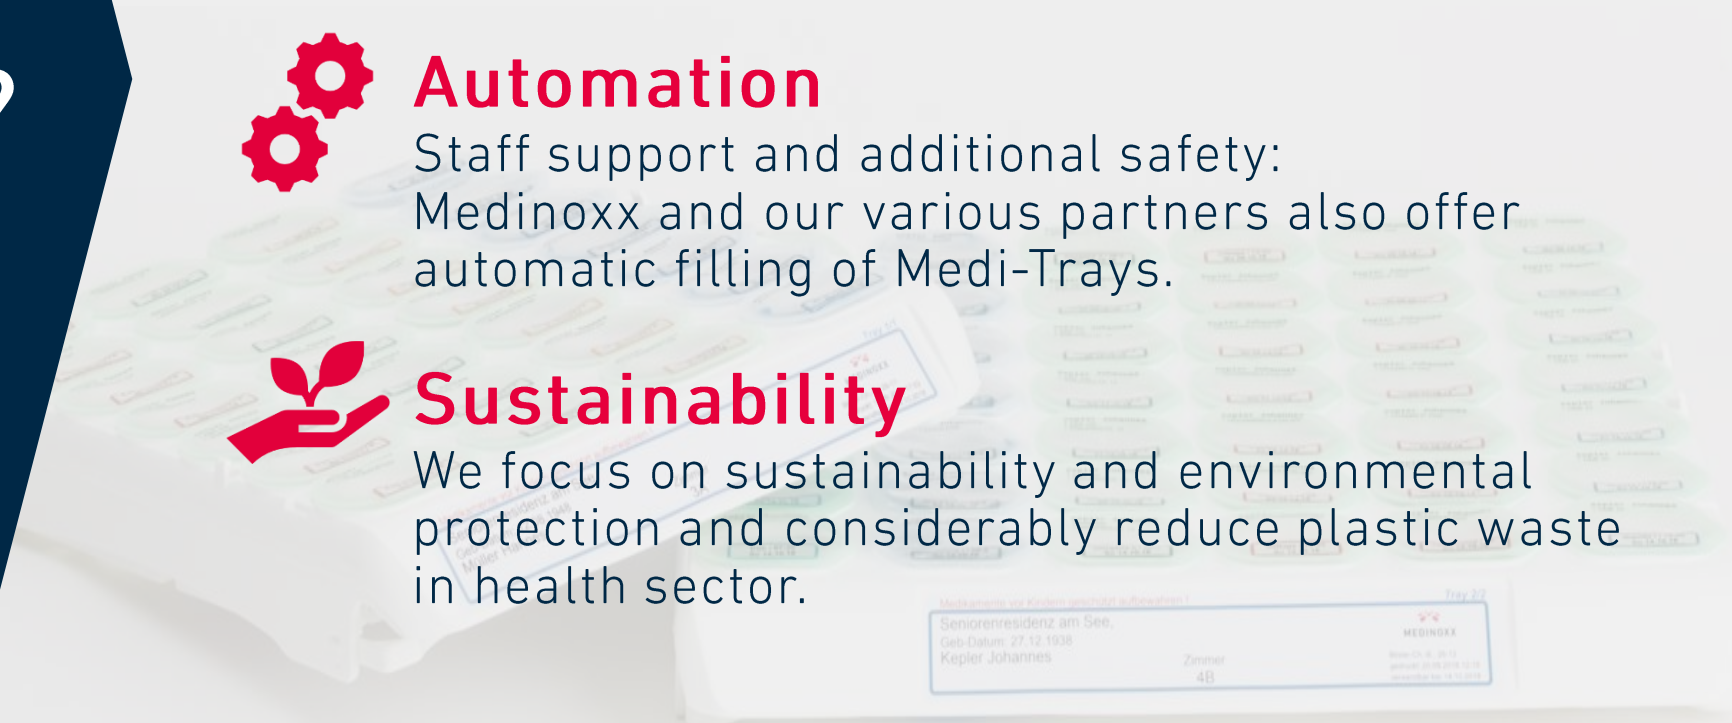

Automation

Staff support and additional safety: Medinox and our various partners also offer automatic filling of Medi-Trays.

Sustainability

We focus on sustainability and environmental protection and considerably reduce plastic waste in health sector.

Medi-TRAY 27
Medi-TRAY 27
Medi-TRAY 27

A woman in a white lab coat is smiling warmly at an elderly man with white hair, who is also smiling. They appear to be in a professional setting, possibly a doctor's office or a care facility. The woman is leaning slightly towards the man, and they both have a friendly, engaged expression.

Our Vision – Our Values

Partnership

For us friendliness, helpfulness and competent advice are self-evident. Through professionalism and open conversation we build trusting and long-term partnerships.

Social responsibility

Based on a cooperative management style and great trust towards our employees, we see social responsibility as an essential element for sustainable corporate success.
